Dear Hub,

I guess you wonder why I  
am writing with a pencil.  
Well Evelyn has my pen and  
she is over at Ahins, and Engy's  
pen well you might know  
she keeps it hot wittige to "  
well you guess?" Last nite after  
George we were over at Ahins  
I told Engy I wanted to take it  
along. But Lorene said I could  
use her pen for any special  
letters. Well you might know  
I don't evry write any special  
letters ha ha. Not even to  
Lockwood any more.

We have some more  
I see again I think you

must of brought it along  
from Beautiful Texas. This  
is the third one we have  
had since then.

Today I helped Martin J.  
Breather he butchered  
two hogs one weight 252 lbs.  
the other we guess at 450 lbs.  
skin and I helped him.

He has four calves and 12 hogs  
ready for the market. He said  
he want to sell them this month.

We have nine little pigys  
left they are so fat their tails  
are about to pop off, you know  
they do that some times.

We had a offer on Daisy today \$50.00  
we figured she should be worth  
more than that. Although horse  
are cheap around here. <sup>Sold By</sup>  
This is about all I know for this time so
